

Emergency Response Lockers

GEAR LOCKERS

Gear lockers are equipped with full height doors featuring either a recessed handle with quiet lock bar or a stout cremone turn handle to secure mission critical gear in addition to personal items.

TURNOUT LOCKERS

Turnout lockers feature open front construction for instantaneous access to service or emergency apparatus and are able to be outfitted according to job demands.

Available in 25 Colors

Based on a popular feature of our MVP locker series, an upper locked compartment - in both 12" and 24" width - is available for safe storage of laptop, binders or any other items.

Customize with our variety of accessories - full width coat rod, partition, half shelf, stainless mirror secured with adhesive tape, heavy duty equipment hooks and more.

Republic introduces a new concept of drawers fitted into the ERL. Heavy-duty drawer glides are rated to a capacity of 200 lbs. enabling heavy equipment storage. Secure using either a padlock or built-in lock.

Choose from Republic's trusted Quiet Lock Bar System or Cremona style turn handle - both feature 3 point latching.

Emergency Response Gear and Turnout Lockers

Republic's new Emergency Response locker line recognizes the needs of emergency responders far and wide. Our modular design offers a variety of configurations to appeal to diverse emergency personnel. Choose from open front locker for swift access to emergency gear or double door style to securely store your personal belongings. Whatever your requirements, Republic's design and quality responds to your unique storage demands.

We are proud to offer a locker line that serves the needs of those that serve us. Designed specifically for both armed services and emergency responders, we offer a full range of accessories geared toward specific storage needs. Built from heavy gauge, cold rolled steel and painted in any of our full range of 25 colors, Emergency Response Lockers feature heavy duty ventilated design. Knocked down or all welded construction is available in widths of 24", 30" and 36".
