STACKED OR SIDE-BY-SIDE CONFIGURATIONS

Our changeable rack includes eight posts along with beams to create five levels posts can be used to create two short sections. The posts can also be combined and held together with a middle level to create a tall, vertical rack unit.

73200 - 36" w x 18" d Levels

73201 - 48" w x 24" d Levels

DECKING

Duradeck is a decking made from 100% polypropylene that is impervious to moisture as well as grease and oils. Duradeck panels are lightweight and can easily be removed for quick cleaning. The panels rest on the top of rivet rack beams and fit neatly into the corners of the posts.
